## PLATFORM & RESOLUTIONS.

The Republicans of the state of Nevada, in convention assembled, express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century.

**Resolved:** That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question existing today by far among the American people.

**Resolved:** That a diminishing quantity of money reduces the price of labor and property, increases the obligation of contract, enriches the creditor, impoverishes the debtor, and parlays industry and enterprise.

**Resolved:** That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the national banks without regard to the interests of population or the wants of the people, and which gives gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loans to national banks without interest, is subversive of the rights of the people, oppressive, unjust, and should be repudiated.

**Resolved:** That a financial policy whereby both gold and silver shall form the basis of circulation, and the money used by the people, which has been taken from the pockets of the people, and in certificates redeemable in coin, or both as convenience may require, is indispensably demanded.

**Resolved:** That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people; that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonetized silver and seized the revenues of the Government for private speculation, in the moral sense of the people, and to pay to the poor Government and Law, we demand that this ring or trust be destroyed and equal rights re-tored to all people.

**Resolved:** That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of the Government, makes war on silver, issues paper currency at the expense of the Government, borrows the revenues raised by taxation and uses them at the payment of interest, contracts the currency to enhance the value of bonds, and enriches the workers while depressing the price of labor and property.

**Resolved:** That we favor the nomination of no man for President who is personally interested in National banks or the bonded indebtedness of the United States, but we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

**Resolved:** That the trickery of the President and his advisers by which they prevented a vote in the House of Representatives on the Beck silver amendment to the bond purchasing bill, equals in sin of the secret and fraudulent demonetization of silver in 1873.

**Resolved:** That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country and to that end will protect the wage-workers competition with the cheap labor of other lands.

**Resolved:** That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he, either as agent or head, is most active in defending.

III.

**Resolved:** That we charge President Cleveland with violating every promise he made in his civil service reform, with skipping the
